

MHS BEACH CLEAN-UP

On Saturday, October 14, Massapequa High School's Team ECHO joined forces with local community members in protecting our beaches from refuse and toxins. Lou Siegel, Science Coordinator for the South Shore Estuary Reserve Office of NYS ran the event. He provided attendees with an inspiring and informing talk on the importance of the estuaries to our local ecosystem. Everyone enjoyed cleaning the beach as a team, making new friends, and the Oreo cookies Lou provided as a reward for a job well done...especially Mookie, Team ECHO's mascot husky. All in all, about 35 service volunteers collected over 450 lbs. of trash!
